Eigenvalue of matrix #3

Find the eigenvalues of ${\bf A}$ and ${\bf A^2}$ where ${\bf A}$ is -

$$A = \begin{bmatrix} 2 & -1 \\ -1 & 2 \end{bmatrix}$$

Your answer should have the eigenvalues of $\bf A$ followed by eigenvalues of $\bf A^2$ separated by a single line resembling this(with smaller value coming first):

_			
5			
6			
0			
2			
_			
3
